## 📄 PROFILE

My name is Seipati Frans , recently just finished my degree at the university of Johannesburg , now persuing my honours degree in Information systems. My career objective is to secure a challenging position in a reputable organization to expand my learnings, knowledge, and skills, I love learning new skills every day and developing myself so that I am always equipped to help. I am very social, easily approachable, eager to learn, committed, versatile, trustworthy and a fast learner which I believe are qualities that make me a valuable employee.

## LANGUAGES

Sesotho ● ● ● ● ●

English ● ● ● ● ●

## CERTIFICATES

- 4IR Certificate
- Completion of undergrad degree from the university of johannesburg
- QYF Internship Completion Certificate

## PROJECTS

### WithU

01/2023 – 11/2023

WithU is a year project that i had to complete alongside 6 of my classmates. WithU is a web app created using technologies like PHP , HTML, CSS , Ubuntu, Javascript and mySQL, it was essentially a plattform that brought struggling students and sponsors together, it made it possible for a student to post their need , not just financial and they would be helped by a sponsor who cares and wants to help

## ACTIVITIES

Outside of my academic commitments, I actively engage in a variety of activities that contribute to my personal growth and professional development:

### Networking and Socializing:

- I enjoy making connections and networking with individuals from diverse backgrounds, which helps me enhance my interpersonal skills and broaden my professional network.

### Soccer:

- Soccer is a true passion of mine, providing not just physical activity but also fostering teamwork and discipline.

### Volunteering:

- I volunteer through the Community Engagement initiative at the University of Johannesburg, where I contribute to the community and develop leadership skills.

### Residence Committee:

- As the Secretary of the house committee at my residence, I manage various responsibilities that have significantly enhanced my emotional intelligence, leadership abilities, and interpersonal skills.

### Quantify Your Future Internship (QYF):

- In early 2023, I participated in the QYF internship, gaining valuable work experience and improving my teamwork skills through collaborative projects.

### RPA Developer Internship:

- Recently, I completed a two-month internship as an RPA Developer at Firtech Intelligence Holdings, where I gained practical experience in Robotic Process Automation (RPA). This internship further developed my skills in process automation and optimization.
